BLOEMFONTEIN HALT.

Roberts Waiting for His Proclamation to Be Felt.

HAS HIS HANDS FULL

Adjustment of Financial and Municipal Matters in the Free State Keeping Him Busy—Mafeking's Relief Far Off Yet.

London, March 26.—The continued absence of aggressive movement on the part of the British is best explained in a dispatch from Bloemfontein dated Sunday. It says:

"Conditions existing in the occupied territory render imperative the somewhat prolonged halt at Bloemfontein. It is necessary for the effect of the proclamation to have time to make itself felt. It is declared that the danger of annoyance to the line of communication may be apprehended unless the territory behind the advancing forces is rendered absolutely secure. Accuracy in this view is proved by the fact that the enemy is breaking up into isolated groups, such as that which attacked the guards and officers on Friday. The adjustment of financial and municipal matters in the Free State is now chiefly occupying the attention of the governor and his legal and financial advisers. The military regime is being conducted with great smoothness, but the recent investigations show that caution must be exercised in dealing with persons apparently loyal."

This summary is probably an accurate explanation of the frequent appearance and disappearance of Boers and insurgents upon which reports are so conflicting and which so puzzle the British military critics.

General Methuen appears to be awaiting transportation and with Colonel Plumer's forces on half rations there now seems little likelihood of the immediate relief of Mafeking, though neither from this quarter nor from General Roberts' or Buller's there any direct news.

The government buildings at Cape Town narrowly escaped destruction by fire Sunday night. State papers, after being much damaged, were removed.

A Lorenzo Marques special says the Transvaal authorities are evidently recruiting actively and large numbers of French, Dutch and Belgian volunteers are constantly passing through that place to join the Boer forces.

No Intention of Raining Mines.

New York, March 26.—A dispatch from London says a correspondent had a long talk with a distinguished Boer, said to be a relative of President Kruger and a son of a well known Boer general, who declared there was not the slightest danger of the Boers destroying the South African mines. "That report," he said, "must have been invented by our enemies. It means to us merely the destroying of our property." Referring to Montague White's statement on this subject in Washington, he said: "They were totally unauthorized. He absolutely had no right to say anything of the kind, and what he said has given a false and harmful impression."

BERING SEA PATROL.

Five Cutters Will Soon Go to Watching the Seal Hunters.

Washington, March 26.—Arrangements are being perfected by the treasury department for the establishment and maintenance of the Bering sea patrol. This patrol will be made by five revenue cutters including the Bear, Manning, Perry, McCulloch and the Rush. The Bear will leave in April and the others will follow soon. The patrol is necessary because of the commission's failure to settle the questions at issue with Canada. The commission had agreed upon a mode of settling the Bering sea seal question under which the United States would have purchased the sealing vessels and outfits of Canadian sealers and have obtained control of the north Pacific but the inability of the commission of the two governments to determine the Alaskan boundary controversy caused the failure of all negotiations with respect to the Canadian questions. The same rules regarding palagic sealing will operate that have been followed for several seasons.

The Yaquis Surrounded.

Sonora, Mex., March 26.—General Torres of the Mexican troops has a large body of Yaqui Indians surrounded a short distance north of Torrin and the early surrender or complete annihilation of the rebels is considered certain to take place. The Indians were neatly caught in a trap and have no mean of escaping except to cut their way through the ranks of the government troops. This body of Yaquis is said to number fully 800 braves.

Held in Bond.

Galveston, March 26.—Captain H. M.

Ward of the steamship Lawrence was given a preliminary trial before Justice Hersberger on a charge of murder in the shooting to death of Michael Milligan, of the gunboat Machias, now in port with the battleship Texas and cruiser New York. He was placed under a \$5000 bond.

Negro Accidentally Killed.

Waco, Tex., March 26.—Clifford McLain, a young negro, while out hunting near China Springs, was accidentally shot and killed.

SERIOUS WRECK.

Fast Mail Goes into the Ditch with Disastrous Results.

Atlanta, March 26.—The fast mail on the Atlanta and West Point railway, which left Atlanta for Montgomery and New Orleans at 5 o'clock this morning, was wrecked between West Point and Opelika, Ala. Express Messenger Oslin was killed and Baggage-master W. B. Blunt badly injured.

The baggage car, mail coach and two day coaches were thrown from the track, but the sleeper was not derailed.

Specials report the death of Baggage-master Blunt and the injury of a number of people, but President Smith says he is advised of but one death and one injury.

Later the following additional casualties were reported:

T. C. Mason of Atlanta, a traveling man, was seriously hurt.

A. E. Johnson of Winton, N. C., a traveling man, badly hurt.

William Hagedorn of West Point, slightly hurt.

Louis Mendelsohn of West Point was injured.

A negro woman had her throat cut and a child was badly bruised.

TUESDAY MARCH 27, 1900.

The dominant sentiment with the people of Bryan is now unmistakably in favor of progress. Better streets, better homes, more manufacturing enterprises—local expansion. We are bound, not only to share in the prosperity which pervades the state, but to make the most of it.

Congressman Sulzer of New York declared in the house last week that: "After the passage of the McKinley tariff law, thirty-four new trusts were organized, and since the McKinley administration has assumed power and the Dingley law has gone into effect, 200 of such 'monsters' have raised their heads in the country with a capital aggregating \$7,000,000,000."

Puerto Rico is a comparatively small island, but it promises to cut a wide swath in the next presidential campaign. The New York World says: "The people of Puerto Rico ask for justice and Mr. McKinley offers them alms. They prayed for freedom and he gives them manacles with an appropriation. But the hocus pocus of tariff taxes collected outside the constitution to be returned as charity is a disgusting piece of hypocrisy, even though the house sanctioned it by the prompt passage of a bill to carry out the president's recommendations."

FOR GOOD ROADS.

Yesterday was a rainy day, suitable for ruminating on any subject which might be uppermost in a man's mind. In swinging around the circle the Eagle was glad to note that some of our business men were putting in their time hustling to the end of providing ways and means to improve the roads and do other things to ward building up the trade of the town and inducing people to come here. The consensus of opinion was: first that some of the roads, particularly those between here and Madison county, are almost impassable; second, that we are losing lots of trade because this is the case; third, that the roads will have to be fixed, and the longer the work is delayed the more troublesome and expensive it will prove; fourth, that the business men will have to organize and take up the work systematically if anything is accomplished. The way to organize is to organize. The spirit of progress is abroad among the people. There will be scores of things of interest to the business community coming up from now on. They can be intelligently handled only by a business men's league. With such an organization funds can be raised to extend road improvement beyond the county, and this is just what will be necessary to hold the Madison county trade, and it will have to be done quickly, too. Let us have organization at once.

MISSIONARIES IN CHINA.

The Authorities Unable to Give Them
the Necessary Protection.

Washington, March 26.—Mail reports
have reached the state department from
China which show that notwithstanding
the energetic protests of the diplomatic
corps, the tsung li yamen is apparently
unable to stop the antiforeigner crusade
which has been in progress for five
months past.

The first foreign missionary to lose his
life at the hands of the "boxers" was
the Rev. Mr. Brooks, an Englishman,
who was a member of the Anglican mis-
sion at Ping Yin, Shan Tung. Mr. Brooks
left the mission to spend Christmas with
his sister who lived some distance away.
While passing through a village on the
way to his destination he was attacked
by about 30 men armed with knives. To
escape his assailants he entered a temple
and pleaded for aid from the head men
of the village, which they refused and
he was ejected from the village. He was
seized by the "boxers," his clothing re-
moved and with the thermometer 15 de-
grees above zero he was led to another
village. While his guards were eating
their noonday meal Mr. Brooks escaped.
He was pursued by three horsemen
who overtook him and cut off his head
with a sword. The governor of the
province, who has since been deposed,
sent a cavalry force to rescue Mr. Brooks,
but he was dead before it reached the
scene of the outrage.

The English minister at Peking made
strong representations to the Peking gov-
ernment and the new governor of Shan
Tung has taken measures to apprehend
and punish the men guilty of the crime.

It has been reported that the boxers
are gathering recruits in the vicinity of
Pingto where two Baptist missionaries
are stationed. In the adjacent districts
there are a number of Christians, both
Protestants and Catholics. The boxers'
disturbance spread from Shan Tung
province to the province of Chi Li. The
officials are profuse in their promises to
provide protection to foreigners but they
fail to do so. At one point in the Shan
Tung province the local official was in-
formed of the purpose of the boxers to
attack a village where a number of
Christians resided. He gave instructions
to troops to proceed to the village but to
move slowly.

The presence of the gun boat Wheel-
ing at Taku and the purpose of Germa-
ny to send its troops to any part of
Shan Tung to provide protection to for-
eign missionaries in danger, will, the
authorities believe, result in ample pro-
tection to American missionaries in that
province and other points in the empire.

TURNING TO THE SOUTH.

Northern Railroads Preparing for the
Greatest Rush Ever Known.

Chicago, March 26.—The colonization
season has been vigorously opened by
the railroads, which has been extended
into southern territory, and the work of
building up the south commercially is to
be carried on this year on a scale hith-
erto unknown, says the Chicago Times-
Herald. Industrial agents declare that
the year promises to be a record breaker
for immigration to southern states and
for the location of factories and indus-
tries. Activity in the phosphate mines,
renewed interest in the cotton industry,
the discovery of the value of cassava as
a money making plant, the knowledge
that the railroads have countless sections
of unoccupied and fertile farming lands,
together with the renewed prosperity of
the entire country, has made new possi-
bilities for the south that were little
dreamed of several years ago.

The work of the Illinois Central road
is a fair example of the boom that is now
on. Up to the present time the road had
exceeded last year's record of new fac-
tories located along the line by 80 per
cent. This remarkable showing has
been made despite the fact that the
months of April, May and June have
always proved to be the best months for
prospecting this work.

AGAINST CIGARETTES.

Persons in the Signal Service Barred from
Use When on Duty.

Washington, March 26.—A death blow
was given cigarette smoking in the
weather service Saturday when Chief
Willis L. Moore issued an order prohib-
iting persons connected with the service
from smoking cigarettes during office
hours and stating further that those who
smoked cigarettes at any time would be
mentioned in the confidential reports,
which are made quarterly to him by the
chiefs of the several offices and divisions
throughout the entire service. The order
is plainly worded and the chief evi-
dently means that it be obeyed.
Chief Moore said that the order was
issued because he had found that the
cigarette smokers in the service were
more careless and lax than others. He
says cigars and pipes are good enough
for any one.

Will Photograph the Eclipse.

Washington, March 26.—Extensive
preparations are being made at the
United States naval observatory for pho-
tographing and observing the total
eclipse of the sun which occurs on May
28. Two government stations will ob-
serve the eclipse, one in South Carolina
and one in Georgia. There may be a
branch station as far south as Union
Springs, Ala., a place directly under the
line of totality.

THE TRIAL OF POWERS

Golden Will Go on the Stand
Complete His Testimony.

OUTCOME SURMISED.

It is to the Effect the Judge Will Bind
Powers Over on the Charges,
Military Commanders Meet
and Talk Over Matters.

Frankfort, March 26.—The examining trial of the Republican secretary of state, Caleb Powers, will be resumed this morning. Sergeant F. Wharton Golden, whose testimony Saturday created a sensation, will continue on the witness stand for cross-examination, his direct testimony having been completed. When he is through, Mrs. Golden, his wife, will be introduced as a witness also for the prosecution and it is reported that she will corroborate her husband's testimony on many important points. The physicians who made the autopsy on the body of the late Governor Goebel, will also probably be introduced as witnesses.

The defense hopes to conclude the examining trial tomorrow. Golden is the last of the prosecution's witnesses, so it has been understood. Since his illness in the courtroom, he has completely recovered.

It is the general impression that the defense may make no effort to controvert Golden's statement in the examining trial. An examining judge needs to have only a reasonable suspicion of guilt to bind a prisoner over to the grand jury and it is evident Judge Moore has this. It will be folly for the defense to show its hand before the real trial. Golden's testimony tended to implicate "Tallow Dick" Combs, a negro barber at Beattyville. Combs has been quoted as saying he can prove his innocence and is willing to go into custody if he is wanted.

Frankfort, March 26.—Judge Moore called his court to order promptly at 10 o'clock this morning to resume trial of Republican Secretary of State Caleb Powers, charged with being an accessory in the murder of Governor Goebel. Wharton Golden, one of the prosecution's star witnesses, who finished direct examination Saturday, but who was taken sick and unable to be cross-examined, was the first witness called. He was not in the courtroom and deputy sheriff was sent to his hotel after him. While the sheriff went after the witness Powers shook hands and talked to friends.

County Attorney Polsgrove at 11 o'clock announced Golden was ill but his doctor thought he would be able to appear at 1 o'clock and asked the judge to adjourn court until that hour, which was done.

Court convened at 1 o'clock and Golden was immediately placed on the stand and cross-examination commenced. ex-Gov. Brown interrogating the witness.

Golden said he learned about two weeks ago he was to be arrested if he did not tell what he knew about the assassination, and if he did not answer for the commonwealth would serve him a term from prison. He said Thomas Cronwell, who swore out the warrant against Powers, was the first person he talked to in regard to the assassination. Cronwell had been to numerous and heard he was connected in some way with the murder and sent for him. Golden said he told Powers of a conversation with Cronwell and told him Powers that he wanted to get away from the situation and he got leave of absence from the Republican assistant adjutant general, Dixon, and left.

Golden said he told Judge Fleming a Winchester he intended to tell what he knew about the affair. He said while he was at Winchester he was stopped by two men, Dr. Foster and William Seale, who grabbed him by the arms and ordered him for exposing the Republican party Golden said he replied that he had not exposed the party.

Governor Brown asked if he had not told Cronwell about the Winchester of

the affair. Golden said he might have told them and that as he would have said anything they wanted him to Governor Brown asked him if he made a habit of saying what a person desired. Golden replied: "Not when I am on equal terms with them."

Colonel Campbell, for the prosecution objected to the way Governor Brown was questioning the witness. While the question was being argued, Golden asked to be excused for a few minutes, as he said he was growing weak. He was taken out of the courtroom by a deputy sheriff.

Troop Commanders Meet.

Frankfort, March 26.—Notwithstanding that troops recognizing the duel governors were quartered within two squares of each other, the Republican troops at the state house under orders from the Republican Governor Taylor, and the Democratic troops at the courthouse guarding prisoners Powers, Coulton and Davis, under orders from Democratic Governor Beckham, Sunday was quiet. The Republican Adjutant General Collier and Democratic Assistant Adjutant General Murray, were together some time. General Collier called to disclaim responsibility for the mine which some of the soldiers made a pretense of laying but it is understood their talk took on a wider scope and that they discussed and mutually agreed upon plans to avoid possibility of any sort of a clash between the troops.

Field Overrules Motion.

Louisville, March 26.—The Beckham-Taylor suit involving the title to the governorship has reached its final stage in the circuit court. Judge Field entered judgement in accordance with his rulings, overruling a motion for a new trial and granted counsel for the Republicans an appeal to the court of appeals. The record in the case is made up and will be submitted early this week. A decision of the court of appeals is expected within a week or ten days.

Machinists Compromise at Chicago.

Chicago, March 26.—The Machinists' union claims to have made progress in the settlement of difficulties with individual firms which has practically broken the backbone of the machinists' strike in Chicago. The new form of agreement adopted by the machinists does away with nearly all objectionable features and has been signed by 23 firms and it is expected 700 of 6000 striking machinists in Chicago will be back to work under new agreements.

Machinists Return to Work.

Chicago, March 26.—Over 100 striking machinists, formerly employed by the Siemens and Hasko company, have returned to work for that corporation, their demand for a nine hour working day and a minimum scale of wages having been accepted.

Receiver Asked for a Bank.

Keene, N. H., March 26.—Bank commissioners for New Hampshire have filed a petition with the clerk of the state supreme court, asking that an assignee be appointed for the Keene Guaranty Savings bank of this city and a petition of the same nature for the Keene Five Cents Savings bank. The finances of both of these institutions has been considered uncertain for some time and neither bank has received deposits of late owing to the general belief they sustained losses through western investments. The Keene Five Cents Savings bank paid depositors one dividend of 10 per cent. It owes \$1,449,058. Keene Guaranty Savings bank paid depositors a dividend of 5 per cent. This institution owes \$718,873.

Vermont Bank Closed.

Washington, March 26.—The controller of the currency has received word that the Merchants' National bank of Rutland, Vt., has closed its doors.

Bank Cashier Under Arrest.

Rutland, Vt., March 26.—The Merchants' National bank has closed its doors and Cashier Charles W. Mussey is under arrest charged with misappropriating the funds of the bank. Amount of shortage is not known at present.

Increase Wages for Miners.

Altoona, Pa., March 26.—The Altoona Coal and Coke company, the Henrietta Coal Mining company and the Frugality Coal and Coke company, all of this city, have notified their miners of a general advance in wages of 20 per cent to take effect April 1. The increase is voluntary and will benefit five thousand miners.

Farm Work Advanced.

Jefferson City, Mo., March 26.—No rain has fallen in this section of the state for over three weeks, and as a consequence the farmers were never so well advanced with their spring work before. The ground is in splendid condition for plowing, and nearly the entire oat crop has been seeded. In many places much ground has been broken for the corn planting. It has been many years since March has been so favorable for farming operations. The only drawback to the dry weather is the dust, which the high winds have made almost intolerable.

Powder Mill Explosion.

Hannibal, Mo., March 26.—An explosion occurred in the separating house at the Hercules powder works at La Motte, 12 miles south of this city. Ed Carter and Peter Buck were the only persons in the building. The house was totally demolished and the bodies of Carter and Buck were found on an adjacent hill so badly disfigured that identification was almost impossible. Both resided at Ashburn, near the works, and leave families. The cause of the accident is unknown.

Murderous Boilermaker.

Owasso, Mich., March 26.—Charles Scott, a boilermaker, broke into the home of his wife, from whom he separated, and furiously assaulted Mrs. Scott and her mother with a heavy chisel. He then drew a revolver and killed himself. Mrs. Scott is fatally and her mother seriously injured.
